JDW: Thanks for your two of the 13th. I had just started to skim the Ducote clips when I was interrupted by an order for O in NO and a long conversation with CBS about which an enclosure. From the cursory glance relevance is possible so as soon as we do some copying, which may be today, I'll return with a growing 3cl package I'm making. The second character on age alone fits the cat who tried to blow me on the first Harv Morgan. Age is pretty general but it is enough for me to want to learn more. The file seems to hold additional interest. At worst it is enough as a basis of questions of the spooks when that time comes. Many thanks and best regards, HW 8/16/76
